

GOOD NAME WORTH
MORE THAN LIFE.STORIES CAUSED S. HOFFMAN'S
SUICIDE AT JEFFERSON.

People Said He Had Robbed Himself, Set Fire to His Store, and Brooding Over the Charges Made Him Crazy—Bullet Ended It All.

JEFFERSON, March 23.—Despondent because people insinuated that he had robbed himself and fired his store, Sigmund Hoffman put a bullet through his head. Some time ago his place was robbed of several gold watches, and about three weeks ago his branch store at Cambridge was burned to the ground. Over these losses he brooded considerably. Then the rumor came to his ears that the people of Cambridge accused him of setting fire to his store. He was a man who prided himself on living an honorable and upright life, and that people should accuse him of such a crime, drove him crazy. For some days prior to the suicide he acted strangely.

MAY VETO THE BLAND BILL.

President Cleveland Is Not At All in Love with the Scheme.

WASHINGTON, March 23.—There is good authority for the statement that President Cleveland has not yet decided what he shall do with the seigniorage bill. He is said to incline toward a veto, and to take the position that the purposes of the act are now covered by the provisions of the existing law, "the Sherman act," authorizing the coining of the bullion, the secretary of the treasury being empowered to coin the seigniorage when it is earned.

PACIFIC RAILROAD DEBT.

Chairman Reilly Says that Legislation Is Absolutely Necessary.

WASHINGTON, March 23.—Representative Reilly of Pennsylvania, chairman of the house committee on Pacific railroads, said regarding the means suggested for collecting the debt due the government from the Pacific roads: "The amount involved is about \$135,000,000, and the proper protection of the government and the collection of such a sum requires the most deliberate and careful action on the part of congress. The first installment of the bonds issued by the government in aid of the construction of these roads falls due in January, 1895, and must be provided for during the next fiscal year. The whole debt will be maturing from that date during the next four years. The first installment of bonds amounts to \$2,362,000. They are absolutely payable on the date of their maturity and hence the necessity for legislation in this respect.

"The committee on Pacific railroads feel it their duty to frame and report some satisfactory legislation. Several bills bearing on the subject are before the committee. The committee expects to have hearings by all parties interested, and to exercise their most earnest efforts to arrive at a just solution of this great problem. What conclusion the committee may arrive at, or the character of legislation they may determine to report, it is yet too early to predict. One thing is certain, however, that the committee fully appreciates the gravity of the responsibility imposed upon them and intends to meet it fully with an eye to securing the best possible protection of the government's interests."

TARIFF COMMISSION SCHEME.

To Take the Whole Matter of Revision Entirely Out of Congress.

WASHINGTON, March 23.—Senator Morgan has expressed an intention to press at the proper time his proposed amendment to the tariff bill providing for the appointment of a tariff commission.

The proposed commission is to consist of four members besides the secretary of the treasury, two of whom are to reside east and two west of the Mississippi, and no more than three of them are to be members of any one party. It is made the duty of the board to make inquiry as to rates of duty and to determine whether they are greater than is just, necessary or proper for the raising of revenue, and their decision is to be reported to the President, who, if he approves of it, is required to issue a proclamation stating the decision of the board, giving the increase or decrease and requiring customs officers to assess and collect duties upon articles mentioned in accordance with the decision of the board. The plan is to take tariff revision entirely out of the hands of congress and leave it to the proposed board and the President.

State of the Textile Industries.

WASHINGTON, March 23.—The official view of the textile industries of the country is given out in a census statement. Since 1850 the capital has increased seven-fold and the value of product nearly six-fold, while the number of employees has increased from 146,957 to 511,697. The total number of establishments in 1890 was 4,114, with an aggregate capital of \$739,973,661. The cost of materials used was \$421,398,196 and the value of products \$721,949,262. The New England and middle states produce nearly 90 per cent of the manufactured goods.

Cut Twenty-Four Millions.

WASHINGTON, March 23.—The members of the house appropriations com-

mittee are congratulating themselves upon the speedy manner in which they succeeded in passing four of their appropriation bills through the house. The reductions made in the sundry civil bill, as compared with the bill of the last session, were \$9,192,000. The reductions made in the pension bill were \$15,000,000, as compared with last year's bill. The aggregate reductions in the four bills were something in excess of \$24,000,000.

Purchase the Mahone Site.

WASHINGTON, March 23.—The bill for the purchase of a site for a new government printing office consumed nearly the whole morning hour, and much to the surprise of nearly everybody an amendment providing for the purchase of what is known as the "Mahone site" was passed. Notice for a motion to reconsider the vote was given. The McGarrhan bill, which was to have been taken up yesterday, went over until Monday and the bill for the extermination of the Russian thistle shared a like fate.

Seated Mr. English.

WASHINGTON, March 23.—The house yesterday, by a strict party vote, seated English, the democratic contestant from the Third California district.

BIG STORM RAGED IN THE WEST
Street Cars Are Blocked and Railroad Traffic Is Retarded

OMAHA, Neb., March 23.—The employees of the Union Pacific have decided that they will be granted the concessions which will satisfy them by one week from to-day or there will be a strike of all the organizations along the entire system. The delegates who have conferred with Mr. Clark and the sub-officials have concluded that the conference means nothing at all to them, as they find they can come to no understanding at all with the receiver's representatives. A meeting of delegates has been held at which all agreed that the conference has proved a farce and that nothing can be expected from it. Another meeting will be held to-night and the men will prepare their final demand. If the receivers do not accede to it a general strike will be declared.

There was a secret meeting of the men last night at which Eugene V. Debs and others spoke. Mr. Debs suggested that the delegates empower their various chairmen to get together into a committee of action and draft an agreement which would be satisfactory to them and which would give them what they thought would be their due, this to be submitted to Mr. Clark in the event that Judge Caldwell was unable to give what was asked. Debs said the only other course open was that of striking in the event the demands were not acceded to.

The trainmen were not ready to submit their new schedule to President Clark yesterday, and so no conference was held at railroad headquarters. The "constructive mileage" feature is again at the bottom of the trouble. On some divisions the officials have allowed brakemen and conductors constructive mileage, but have not granted the same privilege to the engineers and firemen. The engine men do not say that train men are receiving too much pay in these cases, but they demand that they be given the same advantages. On other divisions the engine men have the best of it and the train men want a raise. The engineers deny that they have any intention of striking. They say they have decided to go before Judge Caldwell on the stand made in the conference and not with any threats. They feel they have not gained anything in the conference, but believe the court will give them relief. They deprecate the talk of striking.

MILWAUKEE, Wis., March 23.—The stonecutters belonging to the Stonecutters' union made a demand on the contractors for an advance in pay and the observance of the eight hour rule. The men have been receiving \$3.50 a day and now demand \$4. The contractors refused to accede and the men immediately quit work. There are fewer than 100 men on the strike.

MARENGO, Ill., March 23.—All the employees of the Collins & Burge stove factory struck yesterday for a restoration of 5 per cent which has been taken from their wages.

TOLEDO, Ohio, March 23.—All the men on the Toledo Electric Street Railway company's lines are out on a strike because four employees were discharged, consequently over half of the city is without street car service. It is said that prominent politicians and officials are urging the strikers on for the purpose of making capital out of it in the coming municipal election.

GALENA, Ill., March 23.—The extensive woolen mills at Hanover, Jo Daviess county, which closed down the 1st of January, have resumed work. The operatives are receiving reduced wages at present.

PUEBLO, Colo., March 23.—A miners' convention representing all the miners' unions in the United States, assembled here yesterday. The purpose of the meeting is to take steps toward a federation of all miners' organizations in Colorado. The Cripple Creek trouble may be discussed, but most likely in an informal way.

Gladstone May Regain His Sight.

LONDON, March 23.—Dr. Nettleship, the oculist, believes an operation will fully restore Mr. Gladstone's normal powers of vision.

Complaint Against Dr. Paxton.

NEW YORK, March 23.—The board of health has entered formal complaint against the Rev. Dr. Paxton for failure to report the marriage of Col. Breckinridge and Mrs. Wing.

COLQUITT'S DEATH
EXPECTED HOURLY.THE SENATOR CANNOT LIVE
THROUGH THE DAY.

The Announcement Is a Great Surprise As He Was Thought to Be Much Better Yesterday—Senator Wilson Is Very Much Improved at San Antonio.

WASHINGTON, March 23. [Special].—Contrary to all expectations the attending physician says that Senator Colquitt cannot live through the day. This announcement is a surprise to his friends, as Senator Gordon of Georgia called at Senator Colquitt's house yesterday afternoon, and upon his return at 4 o'clock said Mr. Colquitt had passed a comfortable day. His pulse had remained almost normal during the day and his temperature was improved.

WILSON BETTER AT SAN ANTONIO.

He Will Remain There Until He Recovers Strength.

SAN ANTONIO, Tex., March 23.—Congressman W. L. Wilson and party arrived here yesterday afternoon in a special car from Torreon, Mex., where Mr. Wilson was taken several weeks ago for his health. While thin and colorless Mr. Wilson's condition is much improved, and he will remain here until he has sufficiently recovered his strength to resume his duties at Washington.

U. P. MEN ARE TALKING STRIKE.
Demand That a Settlement Be Made in a Week.

DENVER, Colo., March 23.—Every train from the east is blocked. The wires between Denver and Julesburg are all down. Mountain lines have had no trouble, the storm affecting roads running south and east from Denver.

OMAHA, Neb., March 23.—Specials from the southwestern part of the state say that the blizzard which has been raging for nearly three days. The Burlington, from McCook to Denver is buried and all traffic has been at a standstill. The suffering on the Indian reservation is believed to be extreme, for the Indians had discarded their heavy clothes, thinking the warm weather would continue.

KANSAS CITY, Mo., March 23.—The thermometer has taken a big drop here. It is feared that the peaches and plums now in bloom have been killed. EMPORIA, Kan., March 23.—Severe cold weather prevailed here last night which it is thought has damaged, if not totally destroyed, fruit. Ice nearly an inch thick formed.

BIGGEST IN SIX YEARS.

South Dakota and Wyoming Feel the Ravages of the Storm.

PIERRE, S. D., March 23.—The storm which has raged here for two days exceeded the famous blizzard of Jan. 12, 1888, in amount of snowfall, but owing to warmer conditions was not so fatal. Pierre and the surrounding country are completely buried under snow. The damage will be chiefly to cattle and sheep.

CHEYENNE, Wyo., March 23.—During the last two days Wyoming has experienced one of the most severe blizzards since 1878. The temperature has now moderated and it is believed the loss of range live stock will not be great except in a few localities in the north, where the fall of snow was heavy.

DEADWOOD, S. D., March 23.—The snow storm has ceased its fury. The loss on cattle between Edgemont and Sheridan will exceed 80 per cent. The storm benefited the grangers. The ground was in good condition to absorb the great fall of snow, which will be assurance of excellent crops this season.

Damage to Electric Systems.

DULUTH, Minn., March 23.—The blizzard blew itself out without any serious damage excepting that done to the various electric systems. There were fifteen or twenty blazes during the night, but in spite of the fact that there was no fire alarm system only one proved serious. The residence of Albert Mather was burned and the family driven out into the storm. The loss was \$3,000, covered by insurance.

MOOREHEAD, Minn., March 23.—Two feet of snow has fallen and a high wind has been blowing. All trains are delayed.

MASCOUTAH, Ill., March 23.—A heavy thunder and rain storm prevailed in this section last night. The Louisville & Nashville depot at New Memphis was struck by lightning and burned to the ground. The postoffice there was also destroyed. There was no one in the building at the time.

WEST SUPERIOR, Wis., March 23.—The snow and sleet storm has broken telephone, fire alarm and police patrol wires. Trains are late and street cars are not running. Business is nearly suspended.

Killed Her Child's Assailant.

NORFOLK, Va., March 23.—Mrs. Henry Hugo yesterday shot and killed Frank Watts, a young man aged 19. Watts had criminally assaulted Mrs. Hugo's 15-year-old daughter over a month ago.

BY AN EXPLOSION

DYNAMITE WENT OFF PREMATURELY NEAR PITTSBURG.

Three Men and Two Women Were Blown Into Eternity This Morning And Many Buildings Were Leveled to the Earth—Accident Occurred at Verona.

PITTSBURG, March 23.—[Special].—An explosion of dynamite blew five people into eternity this morning and destroyed many buildings. The explosion occurred at Verona, and the victims were three men and two women.

GOING TO JOIN COXEY.

Industrial Army, Seven Hundred Strong, Passes Through Tucson.

TUCSON, A. T., March 23.—The industrial army, 700 strong, arrived here yesterday and left in the afternoon. The men were given all they wanted to eat by the city. They are orderly and the reports to the effect that they have been pilfering at different points along the road in Arizona are believed here to be without foundation.

WASHINGTON, March 23.—"I can hardly see," said Senator Kyle, chairman of the senate committee on education and labor, "why Senator Peffer should have had General Coxey's bills referred to my committee, but I shall examine them and see what can be done about them."

The senator thinks the army will arrive here in good order and expressed the opinion that the governor of Pennsylvania could not legally take any steps to prevent the army passing through the state.

INDIANAPOLIS, Ind., March 23.—There will be a bloody battle if the northwestern division of Gen. Coxey's army attempts to cross the Indiana state line. Gov. Matthews announces that the army shall never invade this state and that he will call out the state militia to prevent it.

HARRISBURG, Pa., March 23.—Gov. Pattison received a telegram from W. Astor Evans of Hazelton demanding 2,400 tents for those who propose to join Coxey's march. The telegram was signed by W. Astor Evans as "Lieutenant of the Army of Commonwealth." The governor paid no attention to it.

Mulet Goes Through.

DES MOINES, IOWA, March 23.—The senate yesterday, by a vote of 26 to 24, passed the house mulet tax bill and the motion to reconsider the vote by which it was passed was laid on the table. The bill becomes a law when signed by the governor and published. It is not entirely satisfactory, but is looked upon as the best that could be done under the circumstances.

The bill giving women the right to vote at school and municipal elections was passed by the house—yeas, 51; nays, 44.

Charge of Bribery is Now Direct.

OMAHA, Neb., March 23.—The reply of Mayor Bemis to the letter of County Attorney Kaley demanding information as to the alleged bribery charges against a member of the city council was handed in yesterday. The letter from the mayor contained specific charges of bribery which must now be investigated.

Another Small African War.

LONDON, March 23.—A dispatch to the Daily News from Uganda says the British have declared war against King Kabaraga of Unyoro. The British force, under Capt. Roddy Owen, with a number of Nubian soldiers and a Maxim gun, has been dispatched to meet Kabaraga. Widespread trouble is expected.

McKane \$700,000 Short.

NEW YORK, March 23.—Gravesend's board of audit, made up of C. C. Overton, D. S. Van Sicken and James Voorhees, met yesterday and gave the statement out officially that John Y. McKane's accounts with the town were so muddled that he apparently owes Gravesend nearly \$700,000. The report has caused consternation among the supporters of McKane.

Boy Defends His Sister's Honor.

DENISON, Texas, March 23.—Yesterday Harry Frame, a mere lad, shot and mortally wounded W. P. Martin, proprietor of the Variety theater. Martin had been making indecent remarks concerning young Frame's sister, a schoolgirl. The boy's father is superintendent of the Missouri, Kansas & Texas stock yards.

Creedon and Moore to Fight.

CHICAGO, March 23.—Articles of agreement were signed last night binding Dick Moore and Dan Creedon to box twenty rounds before the Twin City Athletic club of Minneapolis the night of April 27. The match was made last Monday, but definite arrangements were completed and forfeits put up last night.

STOLL MADE A SLIP.

Breaks a Condition Made by a Witness in the Pollard Case.

WASHINGTON, March 23.—The reading of depositions was taken up again yesterday when the court met, to the regret of many spectators, who had assembled with the expectation that Representative Breckinridge would tell his story. The first deposition was that of Sister Augustine of the Norwood Convent asylum where Miss Pollard was at first confined. This sister had been for years at the convent; did not recognize Miss Pollard as the one who had been at the convent, and said there never had been but one Louise Wilson there and she gave birth to a child there last fall. During the time Miss Pollard claimed to have been in the institution there had been a young woman there who was veiled most of the time. There was a rather unusual incident when Mr. Stoll read out the name of this young woman, who had claimed to be from a northern state, then apologized and explained to the court that the sister had only given the name under the condition that it was to be kept secret and not to be repeated. This sister had been present at the interview in the convent between Miss Pollard, Attorney Carlisle and Johnson and Sister Agnes, whose deposition had been read yesterday.

Sister Augustine also failed to recognize Miss Pollard. The entries on the convent books under the name of Miss Burgoyne corresponded with the dates which Miss Pollard and Dr. Street had given her admittance to the asylum, the birth of her child and her departure. According to the recollection of the sister, Miss Burgoyne had visited the convent twice after the child was born. The child Marie Gertrude Burgoyne died in July, 1885. When Miss Pollard was told of this, the sister deposed, she had thrown up her hands and run from the room, but when she returned there were no evidences of grief in her face.

When, in the course of the deposition, Attorney Stoll began to read testimony concerning the visit of one of Miss Pollard's attorneys, Mr. Mallon, to the convent, Mr. Carlisle objected to it as irrelevant and the court sustained the objection.

The Christmas card which had been found between the leaves of one of the volumes of Washington Irving given to the convent by Miss Pollard was produced with this deposition and displayed to the jury. It was a large souvenir, six by eight inches, with fringed edges, on which was caught and pressed a faded rose. This card is expected to play an important part in the case, as proof that Miss Pollard was confined in the convent.

The deposition of O. G. Brown, president of Quinn Valley College in Ohio, and son of the president of Wesleyan Seminary, which Miss Pollard had attended, was read. He was a young man in those years of Miss Pollard's schooling, and from the records of the school testified that her bills had been paid by James C. Rhodes. Mr. Brown in redirect examination declared that Miss Pollard was old enough when in school, and had sufficient general knowledge, to resist improper advances from a man. It was a part of the curriculum to teach girls what sort of treatment they should expect from gentlemen.

The deposition of Dr. U. B. Williams, who had lived in Bridgeport, Ky., in 1885, was objected to, but admitted with the exception of one question and answer. In that year he had attended Miss Pollard, when she gave birth to a child. There were three other children, one of them a little tot, called "Mattie" or "Maddie," and the child born then also was called "Maddie."

Dr. J. Owen Robinson of Lexington, whose deposition was read, knew Miss Pollard, who impressed him as being between 15 and 17 years old. More of what Judge Bradley considered expert testimony was excluded.

Before adjournment Attorney Carlisle gave notice that there would be objections inevitable to some of their depositions, and suggested that arguments be heard Saturday. Judge Wilson added that some of the questions would make it necessary to refer to the depositions themselves, so that the presence of the jury would not be proper. With the understanding that if Mr. Butterworth is able to attend the arguments will be heard Saturday morning, the court adjourned.

Denver Has a \$165,000 Fire Loss.

DENVER, Colo., March 23.—Fire broke out at 6:30 o'clock yesterday in the Champa block on Champa street, near Sixteenth street. In half an hour the interior of the building was destroyed and the walls fell. The fire spread to the St. James hotel, just back of the Champa building and fronting on Curtis street. By 8 o'clock the firemen had staid the flames in the St. James hotel, and the fire was confined to half a dozen buildings on Champa street. The total loss will reach \$165,000.

Fortifications Appropriations.

WASHINGTON, March 23.—Senator Call of the senate committee on appropriations has reported the fortification appropriation bill to the senate as amended. The committee increases the total of the house appropriations to the extent of \$829,405, the bill as reported carrying \$3,054,104.

Walker to Go to Behring Sea.

P. E. J. PRENDERGAST STILL LIVES.

Judge Chetlain Grants Mayor Harrison's Slayers a Respite Until April 6.

CHICAGO, March 23.—Last night Judge Chetlain granted a postponement of the execution of Prendergast till April 6. This action was based on a special statute which prohibits the execution of a condemned criminal whose sanity is questioned.

The section of the revised statutes under which application for a hearing of the insanity feature of the case would be made reads:

"And if after the judgment and before the execution of the sentence such person become lunatic or insane, then, in case the punishment be capital, the execution thereof shall be stayed until the recovery of said person from the insanity or lunacy."

"In all of these cases it shall be the duty of the court to impanel a jury to try the question whether the accused be, at the time of impaneling, sane or insane."

The court entered an order staying process of law until Friday, April 6, between the hours of 10 and 2 o'clock.

After consultation among the attorneys it was agreed to commence the trial of the case Saturday morning at 10 o'clock. This is the first time such an action has been taken under the statutes and prominent lawyers condemn the proceedings in unmeasured terms.

TO MEMORY OF KOSSUTH.

People of Hungary Making Arrangements for Erection of a Monument.

TURN, March 23.—The city of Budapest will defray all the cost of the removal of the remains of the Hungarian patriot to that city, and, in addition, the city will meet all the expenses of the funeral and will provide the money necessary for the erection of a tomb and mausoleum in honor of Gen. Kossuth.

The committee having charge of the funeral arrangements is composed of citizens of Budapest, irrespective of party and politics, and it has decided to invite subscriptions throughout Hungary for the erection of the proposed Kossuth memorial.

DENVER PEOPLE IN EARNEST.

Complete Organization of Committee of Safety—Adopt Resolutions.

DENVER, Colo., March 23.—In consequence of the reports that large bodies of men are armed to aid the governor in seating Mullins and Barnes in the fire and police boards, a number of prominent citizens met last night and completed the organization of the committee of safety. They adopted resolutions in which they declare:

"It shall be the duty of the committee by such means as may be determined upon, to aid in the preservation of order, in preventing unseemly conflict and bloodshed and in enforcing the decree of the Supreme court in matters submitted."

McKane's Men Convicted.

NEW YORK, March 23.—Constable Jamieson of Gravesend was found guilty in Brooklyn of perjury, committed in carrying out the program of John Y. McKane at the election last November. The verdict was accompanied by a recommendation of mercy on account of Jamieson's ignorance.

Justice Newton, another of the Gravesenders, pleaded guilty to the charge against him, complicity in election frauds, and was sentenced to ten months' imprisonment and to pay a fine of \$500, and was started for Sing Sing immediately.

Makes a Big Purchase of Wheat.

MINNEAPOLIS, Minn., March 23.—Negotiations which have been pending between the Peavey Grain and Elevator company and the Pillsbury-Washburn company for a large amount of wheat for milling purposes were completed yesterday. The aggregate of the purchase is 3,250,000 bushels and it is to be delivered within the next four months. It is the largest cash deal ever made in the Northwest and probably the largest ever made in the country.

Republic for the Hawaiian Islands.

SAN FRANCISCO, Cal., March 23.—The Evening Post says it has positive information that letters recalling Lorin Thurston, Hawaiian minister to the United States, are now on their way to Washington and that he was requested to hurry home as speedily as possible. Its information is also that a permanent republican government is about to be established in Hawaii.

Robert Ross' Slayer Is Committed.

ALBANY, N. Y., March 23.—Bartholomew Shea, accused by the coroner's jury of killing Robert Ross in Troy election day, was regularly committed by Justice Donohue yesterday on the charge of murder.

LIE ABOUT BENNETT BUT ARE AFRAID.

ANONYMOUS CIRCULAR SENT
OUT BY DEMOCRATS.

Figures From the County Records Completely Refute the Charges that Are Made As to the Cost of Running Court Now and In 1881-82.

EDITOR GAZETTE—A now evidence of the desperate methods which the supporters of Mr. Smith are using to injure Judge Bennett has come to light in the shape of a secret anonymous circular which has been exhibited around the country, pretending to compare the expense of the circuit court in 1881 Judge H. S. Conger's last year with the expense in 1893 and to show that they have been needlessly and extravagantly increased. That circular is a tissue of lies which no responsible man would dare to sign and no reputable newspaper would dare to print. The author of it cannot claim ignorance of the truth, for the county records are open to the inspection of the world, and the records show the facts.

The records of the county show that in 1881, when A. W. Baldwin was clerk of the court, there came into the circuit court during that year 65 civil cases, while in 1894 there came into the circuit court 238 cases. In 1881 the number of criminal cases was 11, while in 1893 the number reached 25. So it appears that in 1881 there were 76 cases in the court, while in 1893 there were 265, or nearly three and a half times as many as in 1881. The county records also show that in 1881, with 76 cases, the court was in session 88 days, or about 1 1/6 days to a case, while in 1893, with 263 cases, court was in session 205 days, or less than 1/2 of a day to a case, showing a gain in the rapidity with which business is transacted of more than a quarter of a day to a case. And this in the face of the fact that a law passed by the legislature in 1883 (Sec. 2422 a. of the Statutes) imposes upon the circuit judge the onerous duty, not put upon his predecessor, of always keeping court open for the transaction of business. Let the supporters of Mr. Smith show what day during 1893 when court was in session was spent uselessly. Will the supporters of Mr. Smith point to a single day of court in 1893 when the business was not necessary, and as important to the clients of other lawyers as the business Mr. Smith brought into court was to his clients? Will he claim that if he were elected, he could reduce the litigation, or reduce the number of cases brought into court?

This same circular contains a vicious attack upon Mr. McGowan, the clerk of the court; and charges that in 1881, Clerk A. W. Baldwin received from the county as his per diem of three dollars per day, \$504, and that Mr. McGowan received in 1893 \$1,077. This is also a lie. The per diem received by Mr. McGowan in 1893 was \$615, or three dollars a day for 205 days; and thirty dollars of that was for the ten days when the Whalen murder case was on trial, which was refunded to Rock county by Columbia county, so that the per diem of Mr. McGowan for 1893 only cost Rock county \$585.

This same circular states, "There was received by the clerk of the circuit court for Rock county in 1882 from other counties \$821. In 1893 by nephew of Judge Bennett—meaning Mr. McGowan—\$1,774.65." This is an absolute lie out of whole cloth. Mr. McGowan only received about fifteen dollars from other counties last year. It is also stated, "The clerk's fees for 1882 were \$344, while Nephew McGowan's fees for 1893 were \$697.65." The county records show that Mr. McGowan's fees against the county for 1893 were only \$615.21, nearly fifty dollars of which were fees in the Whalen case, and were paid back to Rock county by Columbia county, leaving his actual fees from Rock county \$567.56. So that it appears that while there is three and one-half times the business in his office in 1893 his fees were only \$223.56 more than Clerk Baldwin's were in 1882.

The same circular states that "Nephew McGowan received from the county treasurer in 1893, \$3549.30." This lie, if it were possible, is a little more malicious than the others. There is not the shadow of a foundation for it. All that Mr. McGowan ever received from the county for his work as clerk for 1893 were the sums above stated, \$615 for per diem, and \$615.21 fees, of which \$77.65 was refunded by Columbia county, making the whole amount received by him from the county \$1152.56.

Space forbids our going further into the details of this remarkable circular. Its character is sufficiently shown by the extracts and comparisons already given but there is one more we will refer to. "Bear in mind that Rock county has a municipal court trying all criminal cases except murder." This is also false. The circuit court in 1893 disposed of 27 criminal cases, the Whalen case being the only murder case.

It is inconceivable how any man or any set of men who have the slightest regard for justice and truth should lend themselves to the circulation of such a libel. It consists of a tissue of lies and the secrecy with which it has been circulated proves that they dare not put it in public print. A complete answer to the circular will be made later.

JANESVILLE.

SANSPAREIL.

MANSFIELD TOMORROW NIGHT.

Beau Brummell to Be Presented By
Excellent Company.

This city is to enjoy the privilege, next Saturday of seeing Richard Mansfield. There is possibly not a man woman or child in Janesville who has not heard this great actor. Not to know him is to confess yourself unknown. For the last ten years his name has been almost a household word, and his art and the revolution he has effected in his art, has been discussed by the public prints almost a nauseam. Richard Mansfield is neither a comedian nor a tragedian, he is simply a great actor, who makes you feel, who sways you and stirs you at will. Mr. Mansfield has decided to present his famous comedy of manners, "Beau Brummell." This play is undoubtedly the greatest of Mr. Mansfield's many successes, and will be presented here by special request.

WATER AT THE SCHOOL FOR BLIND

Superintendent Pease Is Figuring on an Independent System of Mains.

Superintendent Pease of the School for the Blind is perfecting plans for a new water supply at the state institution. He will first negotiate with the water company for an extension of the water mains to the school. Failing in this he will sink an artesian well, lay pipes around the building and place fire hydrants. He believes that for the present he can, with small power pumps, fill elevated tanks to serve as water supply in case of fire, and ultimately put in a large pump for this purpose. An appropriation of seven thousand dollars has been made by the state to provide an adequate water supply, and work will begin at once.

BURGLAR TOOK MEAL FOR LACK OF CASH.

PORTER HAS AN ACCOMMODATING THIEF.

Broke Into Widow Cassidy's House And Demanded Money—When that Was Refused He Took Anything In Sight—Spring Work Will Begin Early This Year.

PORTER, March 23.—A burglar entered the home of Mrs. Cassidy, a widow living here, last Thursday night, and demanded her money. The old lady had none, and told him so. After rummaging around for a while the midnight marauder departed, taking a sack of corn meal and oat meal under each arm. The old lady screamed for help, but when neighbors arrived the thief had flown. It is thought the disturber does not live at a great distance. The enterprising farmers are rushing the Eagle creamery. Masons, carpenters and well-drillers are all at work. At this rate it won't be long until the building is completed. A good deal of sod has been plowed last week. If nice weather continues, crops will be in the ground early this spring. Miss Hannah Conway spent a few days in Janesville last week. Miss Julie McCarthy visited with her sister in the town of Fulton during the past week. Will Mosher is going to move onto the Steven's homestead soon. Mrs. Halpening of Iowa, is visiting relatives here. John Hendrick is lying very low at his home here of a stomach trouble. Dr. Smith is attending him. John Leary of Philadelphia, left for Omaha last week, after a three weeks visit with relatives here. Before returning home he will visit the midwinter fair in California. James Casey's family moved onto their farm two and one-half miles east of Janesville last Monday. Their many friends wish them success. Miss Myrtle Jones is able to commence teaching again after being ill for three weeks, the result of vaccination. Two young men of Indiana have hired for the season, one at D. Casey's the other at J. H. Nichols. Ossie Colony of Evansville passed through here last Sunday. Dan McGinley of Janesville, was a visitor here recently. He left his little boy with relatives here for a few weeks. Mrs. Hall, of Evansville, visited here on Sunday.

SMASH-UP IN A CHURCH SHED.

Clinton Colt Makes Trouble For Its Owner, E. L. Benedict.

CLINTON, March 23.—E. L. Benedict and wife paid Clinton a visit not long ago. Mr. Benedict driving a colt. Reaching Clinton the colt was securely tied, as was supposed, under the church sheds but in some way got loose, was caught, again tied under the sheds, and again got loose. As a result of these occurrences Mr. Benedict had to take his cart to the shop and go home on horseback while his wife rode home with a neighbor. Mr. and Mrs. Jacket visited Madison not long since. Clarence Smith expects to farm it in the northern part of the state this year. At the annual meeting of the Clinton W. C. T. U. the old officers were re-elected: Mrs. P. Sprague, president; Mrs. Eva K. Wilcox, corresponding secretary; Mrs. Carrie M. H. Dresser, corresponding secretary; Mrs. Dell B. Smith, treasurer. Mrs. B. B. Markle has been very ill. Rev. Mr. Dexter and family have received the congratulations of many of late, their family circle having been increased by one. The event of the season will take place next Saturday evening when the Castilians will give a banquet to the L. L. A. The affair promises to be very enjoyable. These warm days whisper of flowers, and accordingly the juniors of the Clinton high school have commenced the study of botany. Mana Springer is home from Milwaukee. If you wish to learn to paint, call on Mrs. Cora Babcock, at her home, east of town, or at Leon Smith's, on Thursday afternoon of each week. Martin Reimer, who has occupied Byron Wilcox's farm for some time, has moved on to Charles Murray's farm. Beloit seems to have quite an attraction for our good people of late. Dexter Northrop, Mrs. Newhouse and son, besides several others, having visited it within a short time. Mrs. Charles Dresser visited Roscoe Saturday and attended the birthday exercises in honor of Neal Dow, conducted by the Y. W. C. T. U. and W. C. T. U. of that place.

SOUTH CLINTON CONFIRMATIONS.

Ten Confirmed at the Lutheran Church—Rev. Mr. Jensen's Crystal Wedding.

SOUTH CLINTON, March 23.—Confirmation services were held at the Lutheran church here last Sunday. There were ten in the class, three of whom were confirmed in the English language. Several from Beloit and Capron attended the services. Rev. and Mrs. Jensen celebrated their fifteenth wedding anniversary by a crystal wedding which was held at the parsonage last week Wednesday. Young people's meetings are held every Wednesday evening at the west church. Bear this in mind; also that they are worth attending. Oliver Anderson is home on a visit. Miss Emma Paulsen spent Sunday at home; also, Miss Amelia Jacobson. Ole Holmbo, who had been in poor health almost all his life, died last Sunday morning. The funeral was held from the west church on Tuesday. Deceased was twenty-one years old.

Spring Work At Clear Lake.

CLEAR LAKE, March 23.—There is some talk of spring work beginning as soon as the ground settles a little.

Some have tried plowing but have given up. L. Williams is quiet sick with sciatic rheumatism. Miss Olive Crandall and her cousin Miss Zina Garthwait visited friends at Fort Atkinson the first of the week. Warren Thorpe is on the mend again so he is able to be out.

Doings of South Turtle Folks.

SOUTH TURTLE, March, 23.—Martin Reimer and family have moved on to Charles Murray's farm. Miss Clara Blakey and her sister visited Roscoe Saturday. No Sabbath school was held in the Murray district Sabbath afternoon in consequence of the rain. The school in the Jack district closed for vacation last Friday. Mrs. Taylor, a sister of Mrs. Archie and Mrs. Joe Jack is very sick. George Crosby, who has been confined to the house for many weeks is able to be out. Mr. More and family have taken possession of the house vacated by Mr. Pollock. Miss Cornelia Crosby has gone to California for a visit.

ABOUT LOCAL TRAVELING MEN.

D. J. CONCANNON is in Denver. WILLIAM LOESBY is with us again.

C. F. TURNER is getting lots of orders for E. J. Green & Company.

A. MAYHEW, who travels for the Staver Abbott Company, has moved his family to this city.

As business is picking up, the class that has been taking lessons in sitting down, has been discontinued.

PATRICK DUGAN is now making one-day trips through the surrounding towns for F. M. Marzluff & Co.

BERT BUTTON now holds the broom. He sold one hundred and seven dozen in one day and didn't have to "dust" very hard either.

CHARLES L. HARRIS is again making Janesville his home and, as of yore, making soap too. Mr. Harris understands that the manufacture of this article as well as he knows how to sell it.

C. D. LINCOLN, who has been living at hotels for many years, is happy every time he thinks that he has hung his grip up in the closet for good. Mr. Lincoln sold footgear for M. D. Wells & Co., and was one of the best known men on the road.

WILL T. KING who has been off the road for some time and assisting in the management of "The Fair" is back on the old route again. He couldn't feel natural while there was no traveling string tied to him, so he is going to sell rope for the United States Cordage Company of Chicago, manufacturers of binder twine and cordage.

Miss Muggles—I don't like Dr. Penny-save a bit. Miss Muggles—Why not? Miss Muggles—You know he was called in when I was sick and then he began to call regularly. After I refused him he itemized each of those calls in his bill as professional visits.

"This parrot, ma'am," said the dealer, "is one that I can recommend. It was in the family of a clergyman for many years." "Well, gents, what'll you have? Name your parrot!" exclaimed the parrot, with startling emphasis. "He was obliged to part with it, however," continued the dealer with an apologetic cough, "and for the last year or two it has belonged to the alderman from our ward."

The French order of the Legion of Honor has 45,000 members, only twenty of whom, or one in every 2,250 are women.

There is an old Mexican law which prohibits a ninth marriage. A much-married American, in ignorance of the law, violated it, and is now in jail in Colima.

Rev. G. B. Giffin, who was until last Sunday pastor of the Baptist church at Hasbrouck Heights, N. J., when he resigned, has become a soap salesman at a salary of \$1,500 a year.

After an absence of thirty-one years John Watson, a member of the Tenth Kentucky regiment in the late war, returned to his family at Harrisburg, Ky. He found his wife remarried.

During a two-mile run a trolley car at Orange, N. J., struck an express wagon and knocked the driver out, overtook the same wagon further on and again ran into it, collided with a loaded coal wagon and a butcher wagon.

Three of the most important railroads in Russia were taken by the government last month, to be operated henceforth as state properties. These were to have been taken in 1900, but for some reason not made public the government decided not to wait till that time.

It is said that while formerly Russia used wood almost exclusively in railway locomotives, the now prevailing fuel is English and South Russian anthracite and naphtha. Wood is largely used in South America, while in Belgium dust coal is extensively employed, notably on the State railroads. Bituminous coal is the prevailing fuel of Australian locomotives, and in Australia native anthracite deposits are in successful competition with English coals.

SELECTED SQUIBS.

Tommy—Say, paw. Mr. Figg—Well? Tommy—Is slow fevers the easiest to catch?

Poeticus, breathlessly—I have just dashed off these few lines and— Editor—Well, er, suppose you dash off yourself.

"No," said Mr. Grogan, "it is not myself that is in favor of shorter hours. There is too many hours in the day as it is."

Little Tommy—Pop, a negative can never be positive, can it? Tommy's Pop—Oh, yes, my boy. Your mother's negatives are always positive.

Little Ethel—I dess I'll marry Georgie Sweet when he grows up. Mother—You like him, do you? Little Ethel—No, not much; but he's just as fond of chocolate as I am.

He—The conversational powers of Miss Chatterton are something wonderful. She—Why, I didn't know you were acquainted with her? "I'm not. She sat behind me at the opera the other night."

Wool—That was a mean trick Clark-let's rival played on him. Van Pelt—What? Wool—He wrote, "Oh, maid of Athens, ere we part, etc., in the girl's album, and the rival changed the 'Oh' to 'Old.'"

Lawyer—You are engaged as an expert in this case, I believe? Physician—Yes, sir. Lawyer—You will please give your testimony. Physician—I beg your pardon, but until I know what I am expected to prove, it will be impossible for me to go on.

In the Rural Postoffice—"Any letters for me, miss?" "No." "Any for gran'ma?" "No." "Aunt Sally?" "None." "The Jenkins' gals?" "None." "Why, you ain't giv' us any letter in three weeks." "Can't help it." "Got any side meat?" "Yes." "Well, I reckon we won't take any."

MONOLOGUE AND DIALOGUE.

She—I don't believe you ever fell in love. He—Probably not; but I've tripped on it several times.

"Did you advise Howler to cultivate his voice?" "Yes." "Oh, mercy! What for?" "A rain producing machine."

At the Concert—"That sounds like 'Annie Laurie' she is singing." "Well, it isn't." "How can you be so sure?" "Because it wouldn't sound like it if it were."

Old Lawyer—It won't pay you to try to collect that debt. Young Lawyer—But it is valid, and the debtor is wealthy. Old Lawyer—But the creditor has nothing.

"Your thermometer marks ten degrees colder than Smith's does, but I've tripped on it several times. Can you account for it?" "Yes; my wife asked me if her new bonnet was becoming, and I told her no."

It is astonishing what wide diversities of opinion there are on the subject of neckwear.

That's why we a 1000 and one varieties of ties, from the tie that costs 25c to the tie that the most fastidious with a long rent roll might desire.

From the tie that emulates the rainbow in its brilliance to the tie of but one color and that a quiet shade.

We are the only ones about town (as yet) showing the new and most beautiful "3 color effects." Strictly for nice trade. Don't cost so much but it takes a tasty dresser to appreciate the effect produced.

The "stock" bow and 4-inch hand are taking very well for anything so extremely new.

We are showing them for Easter wear now in large varieties.

We would call your attention to our window where we are showing Eater hats, collars, etc.

BASE BALL STARS AT OLD HARVARD.

WHO WILL CAPTAIN THIS
YEAR'S CLUBS.

The Boat Races Still the Most Exciting Event—Baseball and Straight Athletics Receiving a Boom—A Strong Trio.

AS THE SEASON advances and the interest in athletic sports deepens the three men who will be at the head of the several athletic teams at Harvard university are coming into more prominence in the sporting world.

The captain of a college team is not, as he is often represented to be, a sort of human animal, with abnormal muscles, developed at the expense of brain, and a natural and supreme contempt for anything not athletic. On the contrary, the ideal captain must unite an active brain with a vigorous, alert body.

At first thought it might seem that the more general interest in athletic sports at Yale would bring the captains of the Yale teams into greater prominence, but this is not the case. While the Yale captain may wield a more powerful scepter over his little band of subjects, owing to the rigor of traditional Yale discipline, yet in the college at large he is hardly a striking figure—certainly not more so than at Harvard. He shares his popularity and the glory of his victories with the band of coaches who rally at New Haven to assist in the work of developing the teams. This is not equally true in the case of Harvard. The coaches are not so well known there. They have varied a good deal from year to year. The very fact that the interest in athletics is not so universal, and perhaps not so intense, tends to make the captain more prominent. Many of the students do not know who is doing the coaching. To them the captain stands for the team, and its success or failure is his credit or fault.

During the fall the football captain is a lone star in the athletic firmament.

JOSEPH WIGGINS, CAPTAIN VARSITY NINE, ment, but in the spring the adoration of the college is divided between three captains—each the sun in his particular solar system, and all the lesser lights revolve around him.

This season Harvard's captains are all worthy of the trust reposed in them. They have the full support of the students, and are awake to the unfavorable outlook which confronts them. Never has more earnestness been shown in the face of discouraging conditions.

The branch of athletics which has gained the most prestige of the spring sports is boat racing. It is the oldest of the Harvard sports and has always been a favorite at Cambridge. The numerous defeats of recent years have tended to increase its popularity somewhat, but it is still the recognized leader.

The crew this year is captained by Lincoln Davis of the senior class, who pulled No. 4 in the boat last year. He is finely built, a natural oarsman, and a capable man to assume the responsibilities of captain.

In the spring of '92 he rowed in the sophomore crew, which won the class championship, and later in the year was summoned to New London and made a substitute on the Varsity eight, although he did not get a chance to row in the Yale race. Last year he rowed steadily in the fall and spring and made a reputation in the Yale race where he pulled a game oar even when the race was clearly lost.

Joseph Wiggins, or plain Joe Wiggins, as he is better known, will guide the ball nine during the coming season.

HENRY MAY WHEELWRIGHT, CAPTAIN ATHLETIC CLUB.

He is a good example of a self-made ball player. When he came to college from the Malden high school in 1889 he was an average pitcher, as high school pitchers go. During his first year he pitched in the first game of the freshman series with Yale and won, but not very easily.

Since then he has steadily improved under the coaching of John Clarkson and Tim Keefe. Last year he shut the Princeton team out on their home grounds without a run. After that he

was regarded as equal to Jack Highlands, until he was hit in the wrist by a pitched ball while practicing batting. He is now pitching with his old-time success.

Henry May Wheelwright has charge of the track athletic team this spring. This is his last year at Harvard. He has been interested in track athletics ever since he first competed in the annual games of the Roxbury Latin school in 1886. At that time he won the 100-yard dash in 13 1/2 seconds, and the broad jump by covering 14 feet 9 inches. Afterward in the interscholastic games he won first in the 440-yard dash and the pole vault.

He has won a third of a point twice for Harvard in the intercollegiate games in New York, tying with two other competitors each time in the pole vault. In the same event he tied for first in 1891 in the Yale-Harvard games, and won third in 1892 and second last year. In all he has won seventeen medals and fourteen cups. An unusually large number of these

LINCOLN DAVIS.

have been third prizes, and "Wheelwright has won another third" is a trite phrase among his friends.

He is 22 years old and does not look like an athlete, with his rather slender proportions, but there is a deal of strength in his muscles, for in Dr. Sargent's strength tests he ranks twentieth among all the students now in the university, with a total of 890 points. The crew captain is some distance further down the list, with a record of 847.3 points.

In spite of the splendid record of Harvard in this branch of sport, the track athletic team has not the prestige of the crew and the baseball nine among the students. It has been gaining prominence, however, and the number of candidates who present themselves is larger each year. This branch of athletics has the strongest support and approval of the college faculty.

T. J. HELWOOD.

THE LATE ED WILLIAMSON

Was Once a Picturesque Figure on the Ball Field.

Edward N. Williamson, the once famous professional player, who died at Willow Springs, Ark., recently, had retired from the diamond a few years ago and had gone into business with James Wood, the once noted second baseman of the old Eckfords (of Brooklyn) and Chicago teams. Williamson was several years ago considered one of the best all round players in the profession. Williamson was born Oct. 24, 1857, at Philadelphia, Pa., and commenced playing ball in 1875, with the Shibe club, the amateur champions of his native city.

In June, 1875, he joined the Burlington (N. J.) club, and while playing with that club gained quite a reputation as a general player, filled every position except that of pitcher, in a most creditable manner. After the Burlingtons disbanded he finished the season as catcher for the Braddock, Pa., club. The following year, 1876, found Williamson with the Neshannocks of New Castle, Pa., as captain, and he remained with that semi-professional club, playing third base, catcher and pitcher, until it disbanded, and then concluded the Centennial season with the Aenas of Detroit, Mich. In 1877 he played with the Alleghenys of Pittsburgh, Pa., filling the positions of second and third base and catcher at various times with great credit, besides captaining the nine. In 1878 he joined the Indianapolis club and played third base in the sixty championship he took part in that season. In 1879 he joined the Chicago club in the national league, and filled the position of third baseman for seven consecutive seasons, ranking first in the official fielding averages for several seasons.

THE WHEEL.
A Spanish contemporary compares the position of the bicycle stoop to the letter C.

Abbot Bassett will be the official editor of the League of American Wheelmen.

A cyclists' fete is being organized in Belgium to commemorate the opening of the special road for cyclists between Nossesheim and Tervuren.

The century run of the Metropolitan Association of Cycling clubs will be from New York to Asbury Park this summer, probably on June 30.

In the opinion of a French writer cycling in England is an instrument for business purposes, while in France it is a sport and an exercise.

REV. FATHER CLARKE, Sec'y to the Rt. Rev. Bishop of Columbus, Ohio, writes: "Catarrhs—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve."

WHY THEY DREAD AN ELECTION BILL

Suggest such a thing as officers at the polls, and how democrats yell.

Why?

There never was a better explanation than was given in the death of Robert Ross in Troy. For challenging a gang of democratic repeaters Ross and his brother were mercilessly shot down. The man who did the shooting was Senator Edward Murphy's trusted lieutenant, a professional prize fighter whose orders were to "see that the boys are not interfered with." What manner of a man young Ross was who was so villainously done to death that a democratic majority should be secured at the home of a democratic United States senator, is shown in the remarks of his pastor:

"I can gladly, conscientiously testify to the steadfast, sterling character of Robert Ross. I do not know in the city of Troy a man in whom I had more confidence. He was loved and honored in our church because he deserved it. The Americanized and christianized blood of a Scotchman flowed in his veins and made his life true to his God, his home, his church and his country. * * * He was thoroughly temperate. His business brought him in contact with many men away from home, but he neither drank liquor nor used tobacco in any form."

A great mass meeting was held in Troy on the evening of the 8th where a committee of public safety was appointed, consisting of 100 of the most active and influential citizens of Troy. At this meeting, General Stewart I. Woodford, of Brooklyn, in an eloquent speech said:

"It is easy to live and hard to die, hard when the sky is blue and life is opening; hard to pass away from all to the strange unknown. But never a soldier more truly died on the field of battle than did young Ross, shot to death on the field of politics. Never could a young man ask for higher guerdon, never could young hope seek a larger Elysium."

"And I speak to-night what all Troy knows; I speak what the senator knows who fled by dark from the avenging countenances of his neighbors, that no apparent honor of political preferment will bring that senator to a place in the glory and honor of the Empire state such as that young man attained when in one leap he passed from life to glory."

"FOX POPULI"

Republicans made no mistake in selecting their candidates this year. The party's policy of relying on the wisdom of popular judgment was splendidly vindicated.

Now and again we are told that the only way to insure a ticket of "vote-getters" is to have the selection made by an accredited "manager." A one-man power, it is declared, is more likely to choose "available" men. A large share of whatever success democrats have had in Janesville elections has come from

the merits of this system. Republicans have refused to submit to such dictatorship, and at times have presented weaker tickets in consequence. In the main, however, the voice of the people is a safe guide, as the nominations made by republican caucuses this year attest. From top to bottom the ticket is a good one. There is not a weak spot. Factional breaches have been closed, enthusiasm renewed and the determination shown on every hand to reject democratic men and measures.

A Well Known Lawyer.

Wheeler H. Peckham, the well known New York lawyer and antisnapper, was born in Albany 61 years ago and is a son of the late Rufus W. Peckham, judge of the court of appeals of New York state, who met a tragic death at sea in 1873 when the steamship Ville du Havre was wrecked.

Wheeler H. Peckham, in 1854, then removed to St. Paul, where he practiced his profession. In 1863 he moved to New York city, and a few years later attracted wide attention by reason of his prominent connection with the prosecution of the Tweed ring. He is very fond of fast horses and has an elegant home in Morristown, N. J.

ELEANORA DUSE.

Will Play the Part of Paula Raye in a Sensational Play.

The latest rumor is that there is to be a new aspirant for honors in the role of Paula Raye, the heroine of "The Second Mrs. Tanqueray." This aspirant will be none other than Eleanora Duse, who is having an Italian version of Pinero's much-discussed play made for her. She will probably present it in London, where she plays next month at Daly's theatre.

ELEANORA DUSE.

ter, and it will undoubtedly be seen in this country if the capricious actress consents to cross the Atlantic again.

Western League's President.

B. B. Johnson, the new president, secretary and treasurer of the Western league, was born Jan. 6, 1863, at Norwalk, Ohio, although in the younger corps of writers on sporting matters in the west, is widely known as one of the most entertaining and capable of the commentators on the events in the world of pastimes, and has acquired a reputation in this particular department that is not frequently or readily achieved even by those whose advantages and experience have been of a more comprehensive and lengthier nature. He is a son of Prof. A. B. Johnson, a leading educator of the west, who has already gained a wide reputation. Mr. Johnson has been identified with the national game from an early age, not, however, to the disadvantage of a liberal education, beginning his baseball career as a catcher in the Marietta college team. He is known in college traditions as one of the best amateur catchers of the state of Ohio, and might have gained fame as a player had he entered the ranks of the professionals, but gave up the idea and turned his attention to newspaper work.

Room for Further Argument.

"A good deal more might be said on the same subject," said the red-nosed old bum, setting the mug down on the bar and rubbing his stomach with much satisfaction, "but I consider that pint well taken anyhow."—Chicago Tribune.

Consolation.

I do not mind the paying doctors' bills (We all are liable to aches and ills); I do not mind the worry and the pain. There is much pleasure getting well again. —Judge

An Unreasonable Request.

Esther (to her betrothed)—Do learn to skate, George. I'm sure you would look lovely on ice.

OF MANY HUED STRIPES.

Beautiful Wash Silks For the Fancy Waists of Springtime.

A beautiful line of wash silks has been brought out for the spring trade, so lovely in color and soft in texture that it is difficult to make a choice where every piece is so attractive. Solid colors are shown in dull blue, light violet, abstinthe green and old rose, but stripes prevail, and their combinations are innumerable. All the stripes are of narrow width, in whatever manner they are clustered, and the effect as a whole is of harmonious and subdued brightness. Rose and gray, rose and green, rose and tan, and violet and tan are some of the combinations seen. The goods are said to really wash, provided soft water and a small quantity of fine soap be used, and no fabric could be prettier for separate waists for every day use as warm weather comes on.

For more elaborate bodices brocaded taffetas and satin or moire striped silks are employed. These and similar weaves may be obtained to great advantage at this season.

THEATER BODICE.

son, as all the large shops are closing out the remainder of their winter stock of silks and crapes at reduced prices, and five or six yard lengths of fine quality may be bought at half the price per yard—that was charged two or three months previous. In thin qualities of silk the soft varieties wear better than the glaze kinds of the same grade, although the latter appear to have more body.

In regard to the mode of making these waists there is only one law—they shall not be plain. Even the wash silks are usually made up full with a folded belt and collar, balloon sleeves and a double ruching down the front, while corsages intended for theater and evening wear are so voluminously and variously trimmed that it would seem impossible for the subtlest ingenuity to invent a new style. A sketch is given of a theater bodice composed of pale green crape and laurel green satin ribbon, made over a fitted lining of pale green surah. It is shirred in the form of a round yoke, which is outlined by a band of ribbon finished with erect bows on the shoulders. A second parallel band curves across the bust. The bodice is gathered in at the waist under a pointed ribbon belt and has a short, full basque lined with surah and trimmed with a band of ribbon. The tight, shirred sleeves extend from the wrist to above the elbow, where they are met by a balloon puff with a ruffle trimmed with a ribbon band. The standing collar of ribbon is surmounted by a ruching of the crape. The bodice closes at the back.

JUDIC CHOLLET.

Let Erin Remember the Days of Old.

One thousand years ago, and more,
 The Irish flag waved high;
 And not alone on Erin's shore
 Or 'neath an Irish sky,
 But where the Alps like giants tower,
 Defying tide and time;
 By Seine and Thames, in pride and power
 And by the German Rhine.

FOOTBALL.

The Princeton treasurer reports receipts amounting to \$25,280.61 from Princeton's football games.

The great annual match between Oxford and Cambridge, played at West Kensington Feb. 21, resulted in a surprising victory for Cambridge by 3 goals to 1.

Brown University Football association has elected these officers: Aldrich, '95, president; Graves, '95, vice president; Burrows, '95, secretary; Atha, '95, treasurer; Andrews, '96, manager; MacArthur, '96, assistant manager; Rimer, '96, junior member of executive committee; R. C. Green, '96, sophomore member; Colby, '97, freshman member.

PAINT cracks.—It

often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure white lead, ground in pure linseed oil.

Strictly Pure White Lead

GAULKE IS STRONG
IN THE FOURTH.REPUBLICANS ENTHUSIASTIC
OVER THEIR TICKET

Ward is United and All the Nominees From Fathers Down Are Likely to Receive a Clear Majority When Election Day Comes Around—Political Notes.

From top to bottom the republican ticket is meeting with strong evidence of favor. Down in that democratic stronghold, the Fourth ward it is almost a foregone conclusion that the entire ticket from treasurer to constable will go in by a clear margin. A splendid choice was made when the ward ticket was headed by Henry Gaulke. Mr. Gaulke is an exemplary young man, and an able representative of the German-American population, and one of whom the ward may well feel proud. Mr. Gaulke was born in Watertown, this state, in 1859 and his home has always been in

HENRY GAULKE.

Jefferson and Rock counties, he living in Janesville since 1883. At present he is employed in the lumber yards of Schaller & McKey. Industrious, honest and energetic he has made hundreds of friends in Janesville. Mr. Gaulke was not a seeker after the office, his friends forcing the nomination upon him.

"While I did not desire the office the people seemed to insist that I should take it," said Mr. Gaulke. "Having been nominated, I shall do my best to be elected." Mr. Gaulke's parents are Germans, and he is a member of St. Paul's Lutheran church.

No Money Has Been Wasted.

Realizing that their case is desperate, democrats in all the wards are resorting to misrepresentation.

"The condition of city finances under republican rule the past year have been most deplorable. The funds have been wasted in an extravagant manner," the Recorder shouts, and without reason, truth or fairness goes on to abuse the mayor and council because it is necessary to borrow money to pay democratic bills, and make up shortages consequent upon alterations in the license laws. It was a democratic legislature that took ten thousand dollars from the city treasury, making no provision for replacing it, and it was a democratic city attorney who took several hundred dollars from the city treasury for services which he claims to have rendered the city. Other large bills have been presented for extra expenses, but in nearly every case they were from democrats. And yet, because the common council is a political tie, the Recorder has the audacity to call it republican extravagance. In voting money from the city treasury a majority vote is required, and the records will prove the assertion that if any extravagance has been practiced by the present council, the democratic councilmen have sanctioned it by their affirmative votes in each case.

STRONGER THAN EVER.

Would Be Rivals and Imitators Have Risen in the Past and Have Perished—The False and Spurious Soon Rejected and the Genuine Always Recognized.

Fame holds out her wreath to the successful in life's race, and the victors are always envied. Dr. McChesney, the noted eye, ear, nose, throat and lung specialist has been successful from the start, and is today stronger than ever in the esteem of the people. Imitators spring up and impose on the credulous for awhile, but the judgment of the people is unerring and the false and spurious are soon rejected. Dr. McChesney has seen many would be rivals rise and fall. We could name at least a dozen who essayed to secure public favor with sensational advertisements that in a few months had to move. What was the cause of their failure? The belief that it is advertising that builds up a medical practice. This is a mistake, as these failures prove. Dr. McChesney is a specialist first, and an advertiser afterward. Exceptional ability in office work and the fulfillment of every promise conveyed in an advertisement alone, build up a practice based on advertising. You cannot cure people by advertising. Dr. McChesney is here for a life time. He has an unbroken record of success, and hundreds of cured patients vouch for him constantly. See him in the Wilcox block, opposite Hotel Myers, Janesville, Wis.

STONE WILL CASE
HAS BEEN SETTLED.MRS. ASHTON GETS A SHARE
AND WITHDRAWS.

Agreement Has Been Almost Completed and Nothing Remains But The Complying With Necessary Technicalities—How Attorneys Are Paid.

The Stone will case has been settled outside the courts, and the immense estate of the late Daniel Stone is to be divided among some twenty-five interested parties. Negotiations to that effect are pending and have practically resulted in an agreement.

Mrs. Ashton will get a liberal allowance from the estate, but the sum is not yet decided. It will depend on whether her portion is given to her in money or land. The fees of the attorneys for the proponents are also to be paid from the estate. Several wild stories as to the amount of these fees have been told. One version allotted to Winans & Hyzer \$25,000. This was very speedily exploded.

What is left of the estate after the claims of Mrs. Ashton and her attorneys are settled will be divided among twenty-three heirs down east. The heirs named in the petition are mostly nephews of Daniel Stone. Nine or ten live in Canada.

One gentleman said this afternoon: "I am pretty well acquainted with the estate, and I think if it was sold to-day it would not bring over \$140,000, perhaps not as much as that."

A reporter undertook to find Sylvester Morgan, the special administrator, to obtain information of the report, but it was learned that he had gone to Fulton to attend to matters relating to the estate. The attorneys for the contestants, Ogden H. Fethers and M. G. Jeffris, are in the east, consulting with clients over the terms of settlement.

TURKISH BATHS NOW ON TAP

Handsome Hotel Myers Establishment is Now in Running Order.

There is only one opinion on the Hotel Myers Turkish bath. Everybody who has visited the handsome establishment which Landlord E. D. Miller and T. E. Sayre have united in fitting up, are agreed that nothing outside of Chicago can touch it. Marble, plate glass and cement insure cleanliness; ample ventilating flues provide fresh air in all the rooms; a big plunge gives luxury that has not been had heretofore outside the large cities, and handsome drapery and carpetings complete the ensemble. Money has not been spared. The steam room, or Russian bath is pronounced finer even than this branch of the Palmer House baths. The plumbing is of the best, Cody Brothers having done an excellent job. When the idea of a bath establishment was contemplated it was decided that everything should be first class and a skilled attendant was hired in Chicago. He will be on duty twenty-four hours out of the day as the bath will never close. Like the hotel above it the doors will be open from January 1 to December 31. Baths will be given at any hour and a liberal patronage is assured. Manager Sayre will give his entire time to the business.

MPS. E. GRANDISON
WAS 115 YEARS OLD.FORMER JANESVILLE COLORED
WOMAN IS DEAD.

Born In Slavery, She Remembers Being Sold By The Pound—Helped Clear The Streets of New York When Lafayette Made His American Tour.

Mrs. Eliza Grandison, who spent a portion of her 115 years of life in Janesville, died at Waukegan at that ripe old age. Mrs. Grandison was a colored woman and she and her husband lived here some years ago he being a laborer and was employed in the building of the west side fire station. The records at the county house at Waukegan fix her age at 103 years, and members of her family say she was 115 years old.

Eliza was born in slavery in Poughkeepsie, N. Y., and remained a slave "until the Quakers freed us." She remembered being weighed and sold by the pound, and also remembered when General Lafayette went through New York, and she helped her husband clear the streets at the time. She had been married three times.

SOMEWHAT HUMOROUS

His Trifle.

"Mr. Wibbles," she said, firmly, "I desire that you understand my feelings concerning presents. It is my opinion that it would be proper for me to accept some trifling souvenir; nothing more."

"Well!" said Willie, very much embarrassed, "I don't know whether what I intended to offer you could be so described or not."

"What is it?"

"Why—er—the life's devotion of a sincere heart—and all that sort of thing, don't you know. In short, I was going to offer you the name of Mrs. Wibbles."—Washington Star.

Practice and Practices.

They were discussing the fortunes of the various lawyers of the city recently in one of the ante-rooms of the courthouse. One in particular was mentioned.

"I understand he's worth \$100,000," said one. "I wonder if he's made it all out of his practice?"

"No. He made it out of his practices," remarked another—and they all understood.—Indianapolis Sentinel.

Very Much in Earnest.

Aunt—Why, what are you doing? Little Johnny—Only prayin'.

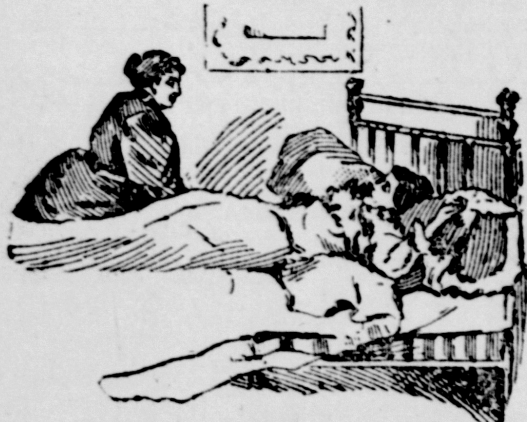

"Praying?"

"Yes'm. I'm prayin' that I'll be a good boy this afternoon."

"That's noble."

"Yes'm. Mamma said if I was a good boy this afternoon, she'd bring me some candy."—Good News.

A SOCIAL COMPLICATION.

"Now, Ethel dear, the doctor is downstairs. I want you to see him."

"Oh, mamma! I'm not well enough to see him."—Harper's Magazine.

A Tender-Hearted Girl.

Mother—Are you sure that girl will make you a good wife?

Son—Sure? Absolutely certain. She is the most kindly, generous, considerate, tender-hearted girl I ever met in my life.

"I am delighted to hear that. How did you find it out?"

"By asking her for kisses."—N. Y. Weekly.

Playing Cards.

You can obtain a pack of best quality playing cards by sending fifteen cents in postage to P. S. EUSTIS, Gen'l. Pass. Agent, C. B. & Q. R. R., Chicago, Ill.

A True Helpmate.

Wife—I have made two hundred dollars this afternoon.
Husband—Pshaw!
"You paid only three hundred for that old piano, didn't you?"

"Yes."

"Well, I have sold it for five hundred."

"My! my! What are you going to do with the money?"

"There isn't any money."

"Eh?"

"I sold it to a dealer. He gives me a new piano for a thousand dollars and allows me five hundred dollars for the old one. If you'd stay at home, and let me go to your office and attend to your business, you'd soon be rich. Just think! Two hundred dollars a day is seventy-three thousand a year."—N. Y. Weekly.

Not Housework.

"I see the papers advertise easy work at home," said Mrs. Brown, as her husband settled himself in his easy chair to read the evening news.

"Yes," he replied, "I have noticed advertisements of that kind."

"Well," she said, as she prepared to wash a sinkful of dirty dishes, "it ain't housework, you bet!"—Boston Courier.

Breaking it to Him.

Mr. Chally—You are a stickler for correct speech, Mr. Boggs. Tell me which is correct, "You are fired" or "You are discharged."

Mr. Boggs—The latter expression is correct.

Mr. Chally—Thank you, very much. Mr. Boggs, you are discharged, to take effect on Saturday night.—Town Topics.

Tell-Tale Preoccupation.

Mother—Well, dear, did you enjoy your walk this afternoon?

Daughter—O, yes, mother.

Mother—Did you walk all by yourself?

Daughter—O, yes, mother.

Mother—Well, then, dear, how was it you started with a parasol and came back with a walking-stick?—Vogue.

The Thusness of It.

We have a new house, a good one, that we want to sell cheap, and take as part payment \$1000 of tobacco, of the crops of 1892 and 1893. Here is your chance.

We have a nice genteel business in the heart of the city; no such chance ever before offered, for a good man and wife to earn easily a good living. We will exchange it for a good house and lot, and pay the difference in cash.

We have excellent homes at \$500, \$450, \$1,000, \$1,200, \$1,500; (this one has over 2½ acres of land right in the city, with good house, barn, well, cistern, fruit, &c.); \$1,750 \$2,000 and so along up to \$10,000.

We have seventy acres good land, but cheap, to exchange as part payment on a good home. Land free and clear and will pay some cash difference on home that suits.

We have some money to loan in sums to suit. We want one first class loan of \$1,000 and an other of \$1,500. Five years at per cent.

AN EVENT LONG REMEMBERED.

It Occurs When a Girl Gets Her First Evening Dress.

The first evening dress of a young girl is a very important thing, at least to her, and should be chosen carefully with an eye to setting off her youthful freshness and the avoidance of an air of maturity. It is a great mistake to put young girls in thick silks and satins and smother the simplicity that is their chief charm under a load of expensive materials that they have neither the years nor experience to carry off well.

HER FIRST EVENING GOWN.

ty that is their chief charm under a load of expensive materials that they have neither the years nor experience to carry off well.

China silks, embroidered India mull, airy nets and all sheer, dainty fabrics are suitable and may be trimmed with silk or velvet ribbons and light lace. If jewels are worn, they should be of the simplest. The most fastidious taste dispenses with them entirely until the ingenu stage is passed. It is also much the best form to have the corsage cut only half low. An extremely pretty gown worn by a girl of 17 at a late wedding reception was made of plain white silk muslin, with a full waist gathered into a belt, the neck being cut down but two inches all around and shirred with a little heading. The puffed sleeves reached to the elbow, and a few sprays of smilax were the only adornment. This unusually simple attire gave the young girl, who, although pretty, was rather heavy, a delicacy and refinement of appearance which a more elaborate toilet, such as she will have to wear in two or three years, would have put out of the question.

The gown of which a sketch is given is not so plain as the one just mentioned, but is nevertheless simple and appropriate enough for the average young girl. It is of embroidered silk muslin, pale green in tint, made over a silk lining of the same color. The full muslin skirt hangs over a bell skirt of the silk, around the bottom of which are set moss green velvet rosettes at regular intervals. The full bodice is gathered in at the waist under a belt trimmed with velvet rosettes. The neck is cut square and is surrounded by a shirred ruffle of the muslin. The sleeves, which extend almost to the elbow, are very full, and over the upper half velvet straps are tacked, ending in bows and rosettes. White gloves are worn.

REST FOR MOTHER'S TIRED HANDS.

Ready Made Clothing For Children Is Now Pretty and Inexpensive.

It is a marvel that any mother will spend time in making the garments for her young children, when their entire wardrobe can be obtained ready made—and well made—at so reasonable a cost. The children's clothing shown this season is remarkably pretty, and much of it is inexpensive. Blue or pink and white striped lawn waists,

LITTLE GIRL'S SUMMER FROCK.

trimmed with ruffles and wide collars, may be bought to go with little boys' fancy suits, besides the usual white embroidered ones, while the suits themselves are shown in black, blue and drab, trimmed with braid, the jacket being made short enough to allow the light waist to appear below it.

White lawn aprons ruffled around the armholes and with ribbons run through embroidered beading about the low neck and tied in bows on the shoulders are a novelty for small girls, while the display of frocks and coats for very little people is dainty in the extreme. There are fine gingham dresses mounted on a white embroidered yoke, with a berth of white embroidery falling over the sleeves; charming, old-fashioned little gowns of white corded nainsook sprinkled with tiny colored flowers and made with full bodice, skirt and sleeves and a wide nainsook sash; white Marseilles coats, with capes, both trimmed with wide embroidery, and etheralized sunbonnets, very perky in the crown and flaring in the brim and prettily embroidered. A beautiful dress for a 4-year-old child is of bright red cashmere. It is gathered into a tucked yoke of the same material and has very full sleeves gathered into a band at the wrist. Full epaulets of cashmere, finely embroidered with white silk on the edge, hang over the shoulders.

The fashion of dressing very little girls in short sleeved and low necked frocks, at least during warm weather, has again come around. It is charming to see the soft little necks and arms uncovered, but gowns made in that style ought always to be provided with a gimp, to be adjusted at the first hint of dampness or falling temperature. An illustration is given of a frock made of blue and white figured nainsook. It is mounted in box plaits on the pointed yoke, which is made of bands of blue and white insertion and surrounded by a ruffle of embroidery to match. Blue ribbons are fastened at the under arm seams and tied in a bow at the back, and blue bows adorn the shoulders.

ONE OF THE TRIALS OF THE SEASON.

The First Edition.
James Payn tells a story of a young poet who had his doubts whether his first volume would pay for itself. At last he wrote to the publisher to know the worst. "Let me know how many have gone off," he wrote in all modesty, "and what is the balance I owe you?" The publisher wrote back: Dear Sir—Your whole edition has gone off, leaving a balance of £20 in your favor; check enclosed. The poet was in the seventh heaven, and yet not satisfied. He rushed to the publisher's office to inquire who had bought the book—friends, enemies, Mudie, or who? "My dear sir," said the publisher, "I think you had better not ask." "Not ask? Why not? You wrote to ask that the edition was all sold; it must have been sold to somebody." "Pardon me, I wrote that it had 'gone off'; so it had, the whole of it. There was a fire in the warehouse and the contents were insured."—Argonaut.

Mr. Edison's Laboratory.
Mr. Edison has challenged the skeptical to name one substance, organic or inorganic, which is not to be found in his laboratory. Every department of nature has yielded its tribute to the potent wizard. The bones of birds and animals, feathers, hides, teeth and horns, shining metals, lucent crystals, variegated minerals lie scattered in profusion; dainty shells and coral repose among mosses and seaweeds; fragrant gums and spices recall memories of the fair Babe of Bethlehem. Chalks, resins, salts and chemicals are heaped about in lavish plenitude. The collection embraces not only raw products, but specimens of nearly every human industry.

An Old Colonial Horror.
At Freehold, N. J., a negro was once executed in a manner that would have made the torturers of the middle ages blush with envy. An old document in the clerk's office at that place tells the tale: "Therefore the court doth judge that thou, the said Caesar, shall return to the place from whence thou camest, and from thence to the place of execution, where thy right hand shall be cut off and burned before thy eyes. Then thou shalt be hanged by the neck till thou art dead, dead, dead; then thy body shall be cut down and burned to ashes in a fire kindled for that purpose, and may the Lord have mercy on thy soul."

A Disputed Case.

Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others can not. Only a specialist of years of experience can tell this. Professor Birchholz, the world-renowned German specialist of the Masonic Temple, Chicago, where those who desire a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment so neccessary to your existence, and if we find that your follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birchholz, 1011 Masonic Temple, Chicago, Ill.

Hand this notice to any first class druggist and he will get the Remedy for you at once, if he has not got it in stock.

"Gladys," said Amy, "why do you have all those paper snakes hanging around the parlor?" "It's a white ribbon test," answered Gladys; "any young man who can act at home among all those snakes is pretty sure to be a temperance chap."

SANSPAREIL.

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Att'y, Washington, D. C.

For eight years I have suffered from catarrh, which affected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

SANSPAREIL.

Life or Death?

It is of vital importance that it should be understood by persons whose kidneys are inactive that this condition of things is finally indicative of a state of the organs where life hangs in the balance. Bright's disease, diabetes, albuminuria are all diseases of a very obstinate character in their mature stage, and all have a fatal tendency. They often battle the most practiced medical skill, and the most approved remedies of materia medica. But opposed at the outset—that is to say, when the kidneys begin to discharge their function ineffectively, with Hostetter's Stomach Bitters, the dangerous tendency is checked. Very useful, also, is this household medicine for those ailments of common occurrence, constipation, biliousness, dyspepsia and nervousness. It is a safeguard against malaria and averts chronic rheumatism.

A false ear and jaw manufactory has been started.

In this country there are 115 medical colleges of various schools.

Adam Veales' "Proper New Booke of Cookery," 1575, was the first modern English cookbook.

A chestnut tree said to be 2,000 years old still flourishes at the foot of Mount Etna. It is 213 feet in circumference.

Mr. and Mrs. John Will of Corvallis, Oregon, aged seventy-six and seventy-four years respectively, were baptized lately by immersion.

Cigarettes have been causing an epidemic of death in portions of China. Now we are avenged on the inventors of the firecracker.

Quaint old customs still survive in many parts of England. In Ely Place, Holborn, a watchman cries the hours nightly in the same formula in use for centuries past: "Past 1 o'clock, and a cold, wet morning."

The value of fur seals shipped from Alaska and sold in the London markets since the territory came into the possession of the United States is given as nearly \$33,000,000, and of other furs as \$16,000,000.

The eggs of the Algerian locust have been found to yield a thick oil resembling honey in appearance. It burns well and with alkali makes a good soap. As large quantities of these eggs are collected by the natives in order to destroy them, it is proposed to extract the oil for industrial purposes.

A maiden lady of Baltimore named Mary Rickert bought five cents worth of laudanum at each of eighteen drug stores, put all of the doses together and swallowed it at the supper table. She resisted all efforts to apply antidotes and, when a bath was suggested by one of the frantic household, said: "I have taken a bath and have my burial clothes on beneath my dress."

A witchcraft case is reported from Narrow Creek, a flag station on the Allegheny Valley railroad between Du Bois and Jabula, Pa. Cows gave bloody milk and things went wrong generally until the directions of a "witch book" were followed. Floors remained unswept for three days, and the dust was hammered with witch-hazel sticks. This made the witch sick, and the cows have been doing well since.

WHIMS AND FANCIES.

Wilkins—Well, Cooper, how do you find yourself? Cooper—Oh, I wake up in the morning—and there I am.

Hicks—Snider says he hates a humbug. Wicks—Well, there's nothing egotistical about Snider, is there?

Figg—Do you believe in second marriages? Fogg—Yes, for women. A widow is a perennial danger to society until she is married again.

"I shall be glad when I get big enough to wash my own face," muttered little Johnny after his mamma had got through with him; "then I won't wash it."

"Are you going to Blobs' wedding?" asked Morehead. "No," replied Sorehead, "I went to one wedding too many, and I stopped going to weddings right then."

Kittie—I heard to-day you married your husband to reform him. Sarah—I did. Kittie—Why, I didn't know he had any bad habits. Sarah—He had one; he was a bachelor.

"I hear you are engaged to Billy Bullyboy," said the first girl. "Yes," replied the second sweetly. "Well, I can heartily congratulate you; I know Billy makes an excellent fiancé."

"I is noticed," says Uncle Mose, "dat de fellers dat does de mos' shoutin' an' talkin' about deir future life is de ones dat don't come anyways nigh investin' all deir money in it."

Tottie, aged five—I wonder why babies is always born in de night time? Lottie, aged seven, a little wiser—Don't you know? It's 'cause dey wants to make sure of findin' their mothers at home.

"Don't you think you could learn to love me?" he said, looking at her wistfully. "I'm sure I couldn't," she answered decidedly. "I'm a perfect dunce. When I was at school I never could learn anything."

Ethel—Why, Maude! You have spelled lots of words wrong. Maude, typewriter—Can't help it. I took it down just exactly as Mr. Knibbs dictated it. Ethel—But, surely, he didn't stop to spell the words out to you? Maude—Of course not. But I'm familiar with his style of orthography.

Country roads in China are not bounded by fences.

By a recent order the minimum standard of height for recruits to the

English foot guards has been fixed at five feet nine inches.

The original concession for the Jaffa-Jerusalem railway was obtained by a native of Jerusalem. It was built by a French company, while the engines and carriages, manufactured in the United States, run over rails made in Belgium, and the most remunerative part of the passenger traffic is drawn from British tourists.

One of the surgeons sent abroad by the United States to inspect intending emigrants at European ports says that the knowledge of such inspection by the United States made the steamship companies extremely careful as to the sort of steerage passengers they accepted. He inspected 15,000 passengers and detained but two.

The most important railway now being built in South America runs from Carthagen, Colombia, to the town of Calamar, on the Magdalena river, which is the main artery of commerce for that republic, a distance of sixty-five miles. It is being constructed by American capitalists.

THE RING.

The governors of thirty-seven of our forty-five states have declared themselves emphatically against prize fighting.

John Bailey and Albert Melton of Madison, Ind., the two middle-weight colored champions, fought nineteen bloody rounds three miles south of Logansport, before 200 sports. Melton was knocked out.

Jerry Barnett, the New York lightweight, whipped Buffalo Davis in a bar-room one night last week. Barnett weighed 130 and Davis 180 pounds. They fought to see who was the best man and the spectators chipped in \$2.24, which Barnett spent treating the crowd.

The Lights Went Out.

A queer incident occurred recently at a church in Pomeroy, Ohio, during a protracted meeting. The minister had just finished reading the text of his sermon when, owing to a breakdown in the electric plant, the lights went out and plunged the church in darkness. After pausing long enough to request the people to sit quietly in their seats, the reverend gentleman continued his sermon, making an eloquent appeal to sinners to turn from their evil ways. At the close of the sermon, which lasted forty minutes, he drolly remarked: "I suppose my congregation is still here, so we will sing a familiar song and be dismissed."

WORKING WOMEN.

THEIR HARD STRUGGLE

Made Easier by the Timely Intervention of One Woman.

[SPECIAL TO OUR LADY READERS.]

All women work. Some in their homes, some in church, and some in the whirl of society. Many in stores, mills, and shops, tens of thousands are on the never ceasing treadmill earning their daily food.

All are subject to the same physical laws; all suffer alike from the same physical disturbance; and the nature of their duties in many cases

quickly drifts them into the horrors of all kinds of female complaints—ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhoea, or perhaps irregularity or suppression of "monthly periods"—causing severe backache, nervousness, irritability and lassitude.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing down, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and you will again be free. Accept the truth.

You can tell the story of your pain to a woman, and get the help that only a woman can give. Her address is, Lydia E. Pinkham, Lynn, Mass.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain, and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the point of injury, and that the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers. The base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble. Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nerve is due to the fact that it is based on the foregoing principle. DR. MILES' RESTORATIVE NERVE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains neither opiates nor dangerous drugs.

TO BE DECIDED SATURDAY.

Contempt Proceedings Against the Mayor and Commissioners Heard.

DENVER, Colo., March 23.—The Supreme court yesterday received the briefs presented by the attorneys for Gov. Waite in his famous city hall case. The court expects to render an opinion some time Saturday. The contempt proceedings against Mayor Van Horne and Excise Commissioners Hullins and Barnes were continued before Judge Glynn yesterday. W. G. Evans, secretary of the Denver Tramway company, who has been accused of sending several hundred armed men to the city hall to aid Commissioners Orr and Martin in their fight against the governor, was the first witness called. He denied these charges and said he had advised the adoption of pacific measures and the peaceful settlement of the trouble.

Exploded in a Church.

PARIS, March 23.—A dispatch from Grenoble says that a bomb was exploded yesterday afternoon in the church of Gallieu, near Grenoble, injuring twenty persons, three of whom may die. The explosion caused a panic in the church, during which a number of the people were injured by being tramped under foot. No arrests have been made.

Take a cup of suet, chopped fine; one-half cup sugar, one-half cup of molasses, a cup of raisins, 3 cups of flour, a teaspoon of soda, one-half teaspoon of salt; milk enough for a stiff batter. Steam one hour and a half. A sauce for the pudding may be made as follows: One-half pint of water heated to the boiling point. Thicken with flour to the consistency of a good gravy. Season with a good teaspoon of butter and any flavoring preferred, such as lemon, vanilla, nutmeg, etc.

Fashion Notes.

Pin dotted changeable satins are used for fancy waists.

Shot serges are very effective when made up with a little velvet of the color prevailing in the wool.

The favorite weavings are wide diagonals, closer woven serges, hopsacking, basket cloths and other canvas weaving and deeply puckered crepons.

Among charming novelties for house waists are chine flowers on moire grounds and also bayadere stripes of satin in delicate tints, pointille with a darker shade.

Hats and bonnets have a tendency toward becoming yet smaller than they were last fall.

The simplest form of the double skirt is the bell skirt slashed to open on a tablier or panel that simulates an under-skirt.

The coming change in dress will affect the skirt rather than the waist. The innovation will probably be either in the direction of panniers or the tournure.

Basques of all kinds prevail—round, full, tabbed or pointed.

Peixoto to Execute All Rebels.

RIO DE JANEIRO, March 17, via Montevideo, March 23.—President Peixoto has revived the imperial decrees of 1838 and 1851. These decrees authorize the execution, without formal trial, of all persons who have taken up arms against the government, as well as those who have aided or abetted, directly or indirectly, the cause of an insurrection.

San Francisco Shorts Squeezed.

SAN FRANCISCO, Cal., March 23.—The produce exchange yesterday afternoon by a vote of 50 to 41 disapproved of the action of the board of directors in fixing the marginal value of May wheat at \$1.05 and requested the board to raise the figures to \$1.10. This is a victory for McGlaulin & Co. over the shorts.

Senate Honors Kossuth.

WASHINGTON, March 23.—The senate has adopted a resolution offered by Mr. Hoar expressing regret at the death of Louis Kossuth and tendering to the family of the deceased the condolences of the senate.
